## ABOUT US

Our furniture adventure, which started with the production of armchairs in a small workshop in 1981, continues today as a larger family with the same determination and enthusiasm.

With more than 50 colleagues in our factory with a closed area of 5,000 m2 in Samsun Ondokuz Mayıs Industrial Site.

We manufacture armchairs, bases, headboards and beds.

No compromise on quality products, quality service and customer satisfaction. Our main goal is to grow without giving up.
